

Painting with Photography on a Digital Canvas

“I have always known that I was an artist. What I did not know, was that it would take me a lifetime to understand what that meant. I had many new skills and talents to develop. I had the responsibilities of lifetime to fulfill and I had relationships to develop and mature.

It is now many years later and I am an artist. My mentors are Salvadore Dali and M.C.Escher along with my wife, my son and my God.” - jerry hanzl
